

# High Capacity Automatic Card/Ticket Counter EMP1500P

*Continuous or pre-selected quantities counting - High-speed  
delivery into detachable 500-card capacity magazines*

Based on mechanical driving mode, EMP1500P is an ideal choice for counting all card substrates with high input/output capacity. Benefit from more than twenty years' experience in smart counting technology, the automatic card counter is a very popular model for a wide range of business sectors globally: mass transit, card manufacturing, banking, government, retail and more...

## Key Features

- Rubber Belt Transfer Mechanism
- Compact design with large display for easy reading of data
- Simplified operation panel, easy to operate
- High-speed counting
- High-capacity input hopper and output stacker/magazine
- Detachable output stacker for convenient production flow
- Preset mode available for presetting counting quantities

**Adjustable to card thickness  
Easy, Fast and Accurate Counting  
Compatible with most Card Substrates**

## Automatic Card Counter EMP1500P

### Specifications

Counting speed:	24,000 cards/hour
Input Capacity:	250 ISO cards
Output Capacity:	500 ISO cards
Display:	Nixie tube
Operating Modes:	Accumulation and Preset quantities
Counting Thickness:	0.5mm-3mm - adjustable input gate
Compatible card substrates:	standard ISO 7810, colored, transparent plastic; dark core, etc.
Working Temperature:	10°C to 40°C
Working Humidity:	30% - 80%

Average continuous operating time:	> 20 hours
Power Supply:	220V/50Hz or 110V/60Hz
Overall Dimension:	650(L)×300(W)×1200(H)
Net Weight:	42.5 KG
