PRO-SERIES E 2000

The E 2000 is an intelligent redesign of proven CIM card personalization technology.

- ✓ The E 2000 has an unrivalled flexibility, containing a double embossing drum and a total drum capacity of 210 embossing characters.
- ✓ Sturdy construction and optimum mechanical design provide durability and reliable performance for any requirements.
- ✓ The compact design ensures easy installation in any working environment.
- ✓ The E 2000 meets the requirements of Visa and MasterCard for the personalization of international credit cards.

The E 2000 is part of a new "MultiModular" range of products from CIM designed for easy interconnection with other CIM modules.
